### **First Week of July, Good Morning,**

*Is it summer-maybe? The baby squash, squash blossoms and the heirloom cherry tomatoes are in abundance. Teenage squash is also ready in 20-pound boxes. We also have blossoms attached to baby squash. Give me a call to arrange for these. The mixed cucumber pack will be several weeks away. Herbs are continuing as are all of the greens. The winter squashes have been planted and are actually germinating-finally. We had a long run with the cool weather and the braising mix is changing to reflect the season. The bitter greens of winter are replaced by the lemon flavors of baby sorrel, the last of the agretti and summer spinaches.*

Squash Blossoms	35 count
