

Yeung Farm

Pink Brandywine

Brandywines come in many delicious and colorful varieties. They have soft skins and are meaty with few seeds; a beautifully sweet tomato that is offset by a wonderful acidity.

Cherokee Purple

The Cherokee Purple has a refreshing acid, a dense juicy texture, is thick-skinned and earthy with a lingering flavor.

Black Prince

A juicy, round tomato with warm, rich colors and robust, full-bodied flavor. Some say it's the tastiest tomato of all.

Carolina Gold

A delicious extra large golden tomato-sweet, flavorful and low in acid.

Green Zebra

The 2-inch round fruit ripens to a yellow-gold with dark-green zebra-like stripes. The flesh is lime-emerald in color that has an invigorating lemon-lime flavor, sweet with a sharp bite to it.

Pineapple

A large, golden-orange beefsteak tomato often with red stripes with a luscious, very rich, sweet pineapple like flavor.

Heirloom tomatoes vary in size, shape, color, texture and taste. Ripe off the vine, these unique tomatoes differ greatly from the hybrid varieties that are available year round. They are generally less acidic than red backyard tomatoes-Early Girl, Shady Lady-resulting in a milder flavor. The acknowledged definition of an heirloom tomato is: (1) the variety must be open pollinated-able to reproduce itself from seed; (2) the variety must have been introduced more than fifty years ago; (3) the variety must have a history of its own-for example, the origin of the popular Brandywine tomato is credited to the Pennsylvania Amish community and is named for a local river. Throughout the season, we will be stocking over two dozen varieties of these seasonal beauties from 'Uncle Ray' Yeung of **Yeung Farm** located in **Yolo County**. Other varieties may include:

- **Japanese**-purple/red flesh
- **Flame**-orange/yellow/red flesh
